The fire was active today with isolated torching and creeping reported. Fire was reported to be most active on the SE flank. It is expected there will be moderate growth on the south and west side of the fire during the next operational period. IC is planning to get the Whiskey Town Module familiar with the indirect piece between the two lakes. They will also assess the structures on the north side of the lake.

Whiskey Town Fire module is on scene.

Increase in acres due to active fire behavior. Improved the line and began burn operations north of Hughes along the prepared ridgeline east towards the south of the village. Began mop up along the burn line. There is a good chance for increased growth again tomorrow.

Fire is being managed and monitored as part of the "Hughes Fires". The Blacktooth, Southern Rockies, and Flaming Gorge Wildfire Modules are all on scene.

532333 Lon: **151:41:22.2** Personnel: **298** Start Date: 6/19/15 Area: **TAD**
PDJS7J Legal: 006N 020W 21 F Out Date:
 # 333 Owner: Tribal Unit: AKDYN-Doyon, Limited
 Name: **Spicer Creek** Cause: Lightning

Fire behavior decreased due to cloud cover, heavy smokes, and very little wind. Single tree, group torching, and backing downslope spread was expected due to the very high Canadian Fuels Indices. It is possible the Spicer fire has merged with the Tozitna fire. They are unable to confirm due to the heavy smoke and no recent IR data. The Blink River and Bering Creek fires continue to grow and move down stream.

Crews in the Tanana area continued to enhance structure protection along the Site road and tested and improved the water handling systems. A structure protection water handling system was put in place and the pump left to run at the Gerland Cabin on the Yukon River. Blind River fire was approximately 1 mile away to the east. One structure on the Tanana Riever was plumbed and run late yesterday, No structure losses as of this operational period. Several Native allotments were burned over along both the Yukon and Tanana Rivers. We have not assessed these yet due to the heavy smoke. River operations were put on high alert as the threat to structures increased near the Moose Point, Kokrine, Blind River, Bering, Hay Slough, and Harper Bend fires. The Hay Slough fire crossed the Manley to Tanana Road near the construction project in the vicinity of milepost 34.

Note: Staats` IMT managing 9 fires: The Blind River, Spicer, Tonzitna, Harper Bend, Hay Slough, Bering Creek, Moose Point, Jackson, and Kokrine fires. These are referred to as the Tanana Area Fires.

Name: **Goodpaster Valley** Cause: Lightning

An IR flight was conducted via helicopter. One hot spot was discovered along the winter trail and on the south side of the river. A second recon flight was scheduled later in the shift to document more on the hot spot. The second flight observed another interior smoke. The interior smoke presented potential to consume 200 acres if the conditions proved right. Currently the fire was smoldering and creeping.

	Name: Whitefish Lake 1		Cause: Lightning	

All structures along the river in the direct line of the fire have been prepped. The fire was getting active on the west flank due to strong eastern winds and will most likely bump into the river tonight. The fire was also flown by detection aircraft 1010F. They reported the fire to be 50% active at the head going westward though the north side of the fire had cooled down with isolated active portions in the black. The fire will continue to be monitored.
