The fire was reported by detection aircraft 909AK who reported that it was 80 acres, smoldering in tundra, and less than 10 percent active. Fuels were continuous between the fire and the town of Kwethluk, with less than a mile distance between them. Helicopter 70NW was launched from Aniak to provide bucket work, and helicopter 210MA was also launched from Aniak with a squad of helitack. The IC reported that the fire received a heavy amount of rain, and was very inactive in the evening. Tentative plans for tomorrow are to mobilize a crew into place to help suppress the fire.

Fire is burning adjacent to the town of Northway. Resources have been focused on the north end of the fire nearest to threatened residences. As temperatures rise and RH levels drop over the next several operational periods, burn intensity on the southern third of the fire may increase. Indirect and direct line to be cut in wetter areas while using natural fire breaks such as creeks and ponds. Point protection will be placed to protect threatened structures.

Fire is torching and backing. All all burn out operations along the line around Hughes were completed. Completed the burn around the cemetery on the north side of town. Mopped up the burn lines. Engaged in structure protection on the south side of Hughes. Mobilization of a crew from Allakaket, was not completed due to poor visibility.

Fire is being managed and monitored as part of the "Hughes Fires". The Blacktooth, Southern Rockies, and Flaming Gorge Wildfire Modules are all on scene.

Fire behavior increased with partly cloudy skies, single tree, group torching and backing downslope spread was expected due to the very high fire indices. Heavy smoke prevented resources from getting a good recon flight early in the day.

Tozitna fire spotted across Bear Creek north of the Tanana airport. Air attack and a scooper were used to slow the fire spread followed by bucket drops which held the fire in hardwoods. Fire in the area of the burn scar along Site Road spotted across the road. The fire will be monitored through the night as it approaches Management Action Point #1. The east end of Tozitna fire has pushed out to the southwest and spotted across Site Road 1/4 mile south of H-30. Crew burned out about 400 acres in the No Name Creek area. On the Hay Slough fire the fire in the Boulder Creek area moved to the northwest and within one mile of a structure. A repeater was installed to give the Boulder Creek Group communications with the Incident Command Post. The Bering Creek Fire moved close to the Repeater site today. The Helitack crew wrapped and lined Repeater #4. A crew from the Moose Point Group and helitack crew searched for a Fish and Wildlife cabin in the far interior from the confluence of the Yukon River and Bering Creek.

Note: Staats` IMT managing 9 fires: The Blind River, Spicer, Tonzitna, Harper Bend, Hay Slough, Bering Creek, Moose Point, Jackson, and Kokrine fires. These are referred to as the Tanana Area Fires.

All the fires within the complex were surveyed via helicopter using an IR probe. Growth was discovered in Div. D, fire 386. The fire continued to creep and smolder. The type 2 team demobilization was ongoing. The local area will assume command when the team leaves. An appropriate downsized management plan is in development.

The fire was discovered by modis dots. Recon aircraft 1010F flew the fire and discovered a 175 acre fire, 100% active in tundra and black spruce with continuous fuels. The fire was crowning, torching and running at the head and creeping at the flanks with eight foot flamelengths. There is one cabin located approximately seven miles to the southeast that is not immediately threatened. The fire will remain in monitor status.
