At 1905 a private citizen from the village of Noorvik reported a wildfire located north of the village. One load of smokejumpers, 3 Fire Bosses and Air Attack resources responded. Upon arrive the fire was approximately 30 acres in size, 75% active, backing in tundra and located in a Modified suppression management area. Due to its proximity near the village, it was determined that action needed to be taken and were able to secure the perimeter by 2400.

A smoke column was seen by helicopters working on the Long Lake Fire. Further investigation showed a lightning strike holdover that had ignited a small surrounding area. One Type 1 helicopter diverted from Long Lake and performed bucket operations. The fire will be checked in the next operational period to determine what additional resources will be needed for complete control and containment.

Shane Greer's IMT2 is on scene. Abajo and HC3266 Wildfire Modules on scene.

The fire is backing in all directions. Flame length is 2/4 feet. Fire continues backing with single tree and group torching. 20-50% of fire perimeter remains active during daytime hours. Smoldering and creeping fire behavior observed during night time and early morning hours. Fire behavior will become more active as drying conditions continue. The fire will continue to back eastward towards structures and the Elliott Highway. The fire is pprox 1.5 miles west of the highway.

Greer's IMT2 will manage 456, 551, & 446.

 Name: **Fish Creek** Cause: Lightning

The fire has potential to impact multiple communities as well as major highways, a military base and operation, transmission lines, and the railroad. Much of the fire perimeter is inaccessible by vehicle, requiring long travel times on foot or transport by helicopter. Extensive swamps with limited or no trail access are impeding progress on direct line and limiting options for indirect line. Direct visibility from and smoke impacts on the Parks Highway, along with burned-over areas in an inhabited subdivision, are contributing to a high degree of public interest. Fish Creek area highly populated with moose, wolf, and bear.

Fire received light precipitation again today. The increase in moisture is making foot travel more difficult, slowing direct attack efforts. Forecast models has these conditions continuing for the next several days which will slow containment efforts. Plans for next operational period includes holding and securing northeast, east, and southeast dozer line with assigned personnel and equipment. Continue to deploy water handling equipment. Continue direct dozer line on the southwest corner to the north. Assess spotting to the north and use direct attack measures if conditions allow. If weather permits, start going direct on slop over and spots to the north.

532333 Lon: **151:41:22.2** Personnel: **277** Start Date: 6/19/15 Area: **TAD**
PDJS7J Legal: 006N 020W 21 F Out Date:
#333 Owner: Tribal Unit: AKDYN-Doyon, Limited
Name: **Spicer Creek** Cause: Lightning

The west end and the north side of Spicer had crown runs in the afternoon. The fire is moving down to the Tozitna River and continues to back towards Tanana. Hay Slough was burning actively from late morning through the day. It is expected all fires gained acreage today and experienced active to extreme fire behavior today.

Resources scouted the proposed dozer line to Bear Creek; it was not feasible but trying to identify other pinch points. Fire is less than .1 mile from Management Action Point #1. Some limited burnout occurred along the Site Road.

Note: Staats` IMT managing 9 fires: The Blind River, Spicer, Tonzitna, Harper Bend, Hay Slough, Bering Creek, Moose Point, Jackson, and Kokrine fires. These are referred to as the Tanana Area Fires.

The Mat-Su crew continued to work on areas of concern and respond to areas identified by dispatch or passersby. The Mat-Su crew will demobilize tomorrow for days off then mobilize back to the fire. As of end of shift, the fire is 100% contained. Plans for the next operational period is to continue working pre-identified hot spots.

Fire showed no activity. The fire is smoldering within the Mississippi Impact Area and will need wind to exit. Strategic objective is to limit acres burned on DNR Lands. Will need to burn out along heavy equipment lines to do so. Indirect lines are complete. Hoselay is 100% complete. Fire is in monitor status.

This fire is monitored by a IC4
