Name: **Bear Island Lake** Cause: Lightning

Ground personnel finished site protection around the Telida RAWs site, and four jumpers were demobilized off of the fire. Helicopter 212HL shuttled 3 personnel out to the fire to provide structure protection on a cabin in the vicinity. Due to an increase in activity, LP-0AK was launched from McGrath to provide eyes in the sky for the ground personnel. The fire was backing at a rank 3, and was approximately 2 miles away from the cabin but did not pose a threat at this time.

Name: **Spicer Creek** Cause: Lightning

Fire behavior: The Spicer fire continued to back towards Tanana. Burn out operations went well and fuel consumption was good. From weather observations we expect all fires gained acreage today and experienced active fire behavior. 8 smokejumpers are on the north side of this fire to assist in structure protection.

Note: Grant's IMT managing 9 fires: The Blind River, Spicer, Tonzitna, Harper Bend, Hay Slough, Bering Creek, Moose Point, Jackson, and Kokrine fires. These are referred to as the Tanana Area Fires.

The mapping flight on 7/11 showed no increase in acreage. No active perimeter was observed and the interior displayed little or no smoke. Div. T continued with gridding and pre-rehab work. The mapping flight on 7/12 observed rank 2 open flame along the northern edge along with a few smokes. Squads should deal with the northern edge, Div. A, during the next operational period. Palm IR flights are planned.

Personnel on the fire worked on berms on the east side of the highway which was supported by a water tender and fold-a-tanks. Supply orders were received and backhaul was taken from the fire. In the early afternoon a wet thunderstorm crossed over the fire with minimal precipitation, then in late afternoon a heavy downpour came over the fire. The plan for the next operational period is to continue working berms which are still holding heat and in the morning 702NP will complete a Palm IR flight.

The fire was flown by detection aircraft 1010F who reported that the fire activity was very active, especially on the southwest corner. Lower Kalskag crew continued to construct direct line, and worked on mopping-up 200 feet in near one structure, while the Payson crew worked multiple hotspots near another structure.

The flight on 7/11 showed a roughly 300 acre gain in the spot fire area. Numerous smokes were observed within the spot fire and little or no smoke was displayed within the main fire area. A more complete mapping flight was done on 7/12. The spot fire was mapped at 562 acres. And is located south of the main fire. Within the spot fire were multiple smokes and a few on the edge. Palm IR flights are planned.
