The fires were less active than the previous day with moderate fire activity within the interior perimeters. High humidity and cool temperatures continue to moderate fire behavior. Multiple hot spots were detected with the infrared camera along the west edge of Bear Creek. Difficult access to fire's edge continues to slow mop-up. The crews secured the containment line between Site Road and Bear Creek where firefighters are pulling hose lines and water pumps. Patrol will continue along the Site road and repair work on the dozer lines has temporarily stopped due to equipment issues. Boat patrols on the rivers continued doing backhaul of equipment. The jumpers and hotshots on the north end of Spicer Creek Fire on the Tozitna River completed the structure protection operation.
