The fire was reported to A/A OAK from T-55 as a fire 3 to 4 miles north of Fire 191. A/A OAK flew the fire and sized it up as 5 acres, burning in mostly black spruce. The fire originated in an old burn, but continuous unburnt fuels of black spruce were ahead of the fire for multiple miles. T-52 and T-55 were requested, and each dropped one load of retardant. J-12 was also requested out of Galena, but was cancelled due to the extremity of the fire behavior. A/A OAK later sized the fire up as at least 320 acres, rank 5 at the head, and 100% active. No resources were immediately threatened, and the fire will be reevaluated again in the morning.

The fire was reported approximately twenty miles east of Medfra up the North Fork Kuskokwim River. Helicopter 212HL responded and reported the fire to be 1.5 acres, rank 1, burning in black spruce in an old burn scar, with winds 0-5 out of the northeast. The helicopter began bucket work, but due to increasing winds and temperature the fire grew rapidly. A/A 840AK, T-52 and T-55 responded to the fire, along with J-17 who deployed eight jumpers. Personnel continued to work the fire throughout the afternoon, but high winds caused continual running and spotting, hindering their suppression efforts. At the end of shift the fire was reported to be approximately 1650 acres. Twelve personnel will remain on the fire overnight. Four type-2 crews, Yukon crew, and White Mountain crew are also standing by awaiting results from the suppression plan, which will be reevaluated in the morning.
