 #251 Owner: ANCSA Unit: AKNAN-NANA Regional Corporation, Incorporated
 Name: **Warren Creek** Cause: Human

The fire was reported to dispatch at 1435 by a citizen of Shungnak. The initial report placed the fire six miles NE of Shungnak and eight miles NW of Kobuk. Per Duty Officer, Air Attack 4NC and J-07 was launched to the area. AA reported having the column in sight from 60 miles out and inquired on the availability of retardant and requested to launch the two Firebosses out of Galena. Upon arrival, 4NC reported the fire behavior as backing, running, and torching with spotting a couple hundred feet in front of itself. The fire was 10 acres at 1535 and running toward Dahl Creek. AA requested the two CL-415's out of Fairbanks, along with a lead plane, a second load of smokejumpers and a retardant ship. At 1550 the fire had doubled in size with spotting 300-400 feet at the head. AA ordered a third load of smokejumpers out of Fairbanks. At 1741 T-55 completed a drop on the fire and was released back to LADD on a hold because the load and return time was not efficient enough for the amount of retardant used on the fire. AA requested the additional two Firebosses out of Fairbanks to replace T55. The first spot was five acres at 2007 and the helicopter was working it along with the ground personnel. At 2022, the fire was reported 80% active at 894 acres. AA reported the Firebosses and CL-415's were doing good work and when they left the fire at 2253 it was approximately 1,174 acres.

Staffed

Count: 2

Acres: 9,639.0

Acreage Change: 0.0

 Name: **Medfra** Cause: Lightning

Crew personnel accomplished securing 20 feet in from H-5 to H-1, while extinguishing all smokes observed in that area. White Mountain secured 50 feet in from H-15 to the end point, checking all hot spots and doing a green grid. Plans for tomorrow are to bump crews between H-13 and H-15, to secure line between the two helispots. Tentative demobilization is still scheduled to begin on 6/12.

Name: **Big Mud** Cause: Lightning

Zone surveillance aircraft, N309VS, flew a reconnaissance mission over the fire today. At the time of report the fire was 5 percent active at the perimeter with a low rate of spread to the south and west. The winds were light and the fire area existed under 100 percent cloud cover. Change in size due to digital rendering.
