 Name: **High Creek** Cause: Lightning

The fire was reported by agency aircraft 4MN on a detection flight this morning at 1148. The initial report placed the fire in Limited, however, it was three miles south of the Hogatza River gold mine. The fire was reported at 20 acres burning in a continuous fuel bed of black spruce leading directly to the mine. Winds out of the SW were pushing the fire toward the mine. J-17 was dispatched to the fire and jumpers were on the ground by 1234. Upon arrival, the IC called and requested two CL-415's and an AA to respond to the fire. By the time the scoopers and AA arrived on scene, the fire grew to an unmanageable size for eight jumpers and the fire objective transitioned from full suppression to point protection on the mine. Helicopter 32AT was ordered out of Galena to perform a crew shuttle from the fire into the Hogatza River mine area. Point protection operations are now in effect and the estimated size of the fire is 1,233 acres at 2100 this evening.

The Duty Officer received multiple phone calls throughout the night of a fire northeast of Huslia. First thing in the morning a detection flight was launched. The fire is 18 NM northeast of Huslia and burning to the northeast and backing to the southwest at a moderate rate of spread. The fire plots in a Modified suppression area, and there are Native Allotments at risk. Due to a lack of initial attack resources, no action was taken at this time.

Fire was reported by mushroom harvesters. H-811KA responded and dropped 9 buckets on the fire. A short squad continued to work what turned out to be a holdover from the Healy Lake Fire. Numerous hotspots were dug into and the fire was mopped, gridded, and cold-trailed. Fire was contained and controlled and demobilization of personnel and gear is planned for the next operational period.

Fire personnel continued to cut saw line around the fire and improve the helispot. The fire continues to smolder but did receive light precipitation earlier in the day. Engine C-42 supervised cargo operations at a sling site near Dot Lake in order to move supplies out to the line via H-83230 in the early afternoon. The helicopter then mobilized the Nikolai crew to the fire. The plan is to get the crew into place on the line and work to secure the perimeter.
