 #551 Owner: USFWS Unit: AKKNR-Kenai National Wildlife Refuge  
 Name: **Skyline Trail** Cause: Human

State Troopers relayed a report of a fire burning on top of Skyline Trail. Two DOF engines, Air Attack and 212TH responded. Air Attack was released when 212TH arrived on scene and found the smoke. Personnel found a 10'x10' area smoldering in rocks and moss on top of the ridge. The fire plotted in a Limited protection area. Land manager was contacted and agreed to non-standard response due to the current hot dry conditions and the fire was located near Full protection and in an area frequented by recreational users. Helitack crew took suppression action and called the fire contained, controlled and out.

Activity increased around 1700, fire made a push up the drainage making short runs with intermittent torching, making several spots over the retardant line over 1/2 a mile away. Crews worked bucket ships to assist holding their line. Strategic objectives for the fire are to stop the growth on the left flank by cutting a line and tying it into a scree slope. On order are 2 T2IA Crews, will possibly be filled by reassignments from fire 470. When the smoke cleared aerial resources found a sloop over within 1.7 miles of the rainbow subdivision, which is off the main right flank of the fire. IC is requesting two task force of engines. The fire's size has increased to 60 acres. As of midnight T2 Team was ordered for 7/20 at 1000.

Assigned Crews:

Despite widespread rain across the Interior, the fire has only received trace precipitation. Crews achieved containment objectives along the west flank from H-5 to the northern end of the fire. However, the duff remains dry and continued stubborn growth is challenging containment efforts on the eastern and southern edges. Crews will continue to work towards meeting objectives as the Type 2 Black IMT works with Tok Area to assess suppression repair needs for the incident and prepares to transfer command to a Type 3 organization mid-week. Note that corrected coordinates have placed the fire origin on State lands.

The squad of 4 fire personnel plugged into the Lyman mine area are expected to utilize today and part of tomorrow to accomplish all site protection goals in that area. Aircraft 646AT flew a 5 man squad from Yukon Crew, plus one overhead, into the Donlin Creek mine to help support site protection goals in both locations. The fire was flown at 1550 by aircraft 646AT who sized it up as rank 2 on the northwest perimeter, and rank 3 on the southwestern edge. The perimeter was 30% active with moderately continuous fuels, with winds 10 mph out of the WSW. The fire was backing, with isolated and group torching occasionally. Tentative plans for tomorrow consist of finishing up their goals around the Lyman area, and moving all personnel to the Donlin area to finish site protection.

Helicopter 16973 bumped the 4 man squad of the Yukon Crew that was on fire 458 to fire 442 mid-day today for cabin protection. Upon arrival, the IC sized the fire up as rank 2, 40% active with the closest cabin being approximately 2 miles away from the fires edge. Fire personnel were able to reach the structure and begin assessing a plan for their suppression goals. The fire will continue to be monitored as needed, and personnel will begin working on site protection this evening.

Fire personnel completed all cutting of underbrush around multiple outbuildings, and are now working on cutting down multiple clusters of spruce to finish up their site protection goals. Due to winds at 12-15 knots, with gusts to 20, they were unable to burn their piles, and will try again tomorrow if the weather allows. The fire was flown at 1400 by aircraft 9602F who reported that it had a 25% active perimeter, smoldering and creeping in black spruce. The fire was burning east and south and will continue to. Acreage change due to more accurate mapping.

Fire personnel flew a recon of the fire in the afternoon and reported the fire has bumped the Selby River in two places but has not spotted across. There is still a lot of heat on the line and fire behavior is creeping and backing. The lodge owner has a cabin in the burn that has black around it, but did not burn. The fire did burn into an allotment and action will be taken on suppressing the fire in that area.

Gannet Glacier continued to mop up on the southeast side, the east allotment where burn operations were completed, and the southeast cabin. Monitoring of the northern edge of the fire will continue, as it is backing toward the lodge. The fire received limited precipitation. Personnel remain at the incident.

The fire was flown by aircraft 9602F who reported it as smoldering and creeping, 40% active with WSW winds at 15 knots. The dominant fuel type the fire is burning in is tundra, with numerous wetlands surrounding it. Most of the fire growth has occurred on the NNE, and nothing is immediately threatened. The fire will continue to be monitored daily, or as needed.

Helicopter 212HL flew a squad of 5 people into the fire early afternoon to begin site protection on two allotments in the vicinity of the fire. Upon arrival, the fire was sized up as 1,000 plus acres, 70% active in continuous black spruce. At 1900 there was a wind shift that increased fire behavior, and was pushing it towards the squad. A/A OPE was launched to the fire to provide eyes in the sky, and once over the fire determined that the winds had shifted back, pushing the fire away from the allotments, and that it was 80% active. Due to the sporadic winds, it was determined that 212HL would demobilize the squad and bring them back into McGrath. The fire will be flown again tomorrow, 7/18, and the allotments will be reassessed.

**0.4 Acreage Change Since 07/14**

**601415** Lat: **61:51:25.3** Status: **U/U** Acres: **0.5** Option: **Modified**  
 Lon: **149:45:41.1** Start Date: **7/12/16** Area: **MSS**  
 Legal: 020N 003W 2 S Out Date:  
 #415 Owner: State Unit: AKAKS-Alaska-Other  
 Name: **Willow Mountain** Cause: **Lightning**

Forestry received phone calls from Talkeetna and Kenai Flight Service regarding the numerous calls they received, from aircraft reporting smoke northeast of Willow in the Talkeetna Hills. BD-0AK was on their way to relieve A/A 9AK over fire 541, and took a look. Reports were of fire 415, nothing else found in the area. Forestry's public information officer was requested to "spread the word" about fire 415 on social media; NOTAM may not be sufficient, due to the effectiveness of cellular devices and people's attention to them.
