The fire was called in by Dillingham Flight Service at 1422 who reported that multiple aircraft were seeing a fire approximately 40 miles northwest of Dillingham. J-07 was launched from McGrath, and upon arrival sized the fire up as 25 acres, burning in a mixture of black spruce, tundra, and mixed hardwoods. J-07 went to Dillingham for fuel, and when they arrived back to the fire it had grown to 100 acres, 80 percent active, running and torching in mixed fuels. Nothing was immediately threatened, and due to a Limited protection level, J-07 did not take action. Later in the evening, A-4 was launched from Palmer for a mapping mission, and sized the fire up as 800 acres, rank 4 at the head and rank 1 at the tail, running in mixed fuels. No values were at risk, and the fire will remain in monitor status.

The fire was reported by a private caller as a large stump on fire. Forestry responded with one engine and Prevention. On location Forestry personnel found three large stumps burning deep. A Mark 3 pump and hose was deployed and the fire was extinguished. The fire is placed in monitor and will be checked tomorrow.

911 reported a fire in a residential area. Three Forestry engines, Gannett Glacier Type II IA Crew, and Helicopter 873HL responded. The fire was found to be burning deeply in land clearing slash. Upon investigation, it was discovered that the fire was caused by a chainsaw hitting rocks. The fire was contained, controlled and placed in monitor status.
