At approximately 1230, a local resident reported a fire burning 10-15 miles NE of St. Mary's. Air Attack 4NC responded and found the fire to be burning approximately 120 acres in Full management. A/A 4NC and Fire Bosses 208, 209, and 243 assaulted the fire with several drops of water. Around 2000, J-66 was requested to assist the air resources, and then completed jump operations at approximately 2200 with 8 jumpers on the ground. Per the IC, they are smoked in with very active flanks and a solid anchor. As the night has begun, jumpers plan to commence burn operations until 0200, utilizing the cooler temperatures, lower winds, and water sources around them. Based off of fire activity, per IC, air resources and additional supplies will be requested for the following operational period.

Digital perimeter showed 759.4 acres.
