The fire has been called contained and received wetting rain throughout the day. Fire behavior is reported as minimal and continues to smolder in the interior. With the wetter weather, identifying hotspots has been difficult as there are no visible smokes. Chena IHC will complete their last shift of work on the fire tomorrow and be demobilized from the incident on 6/14. The Type II crews will continue to extinguish areas of heat on the flanks on the fire. Plans to reassign the Midnight Sun IHC to this incident are scheduled for tomorrow.
