The fire received substantial precipitation today, which has increased the percentage of containment to 90% and has upped the date of demobilization. Air Attack and the two Fire Bosses were released from the fire, but H-361EH was still requested to bring in critical supplies for the personnel on the ground. For much of the day, the helicopter was unable to reach the fire due to poor visibility. In the afternoon, there was finally a break and the weather and H-361EH was able to deliver the critical supplies and a recon flight for the fire. The helicopter then began demobilizing smokejumpers from the fire. A total of 6 jumpers were demobilized to Galena. For the next operational shift, personnel plan to continue demobilizing resources and expect full containment of the fire.
