The fire was discovered by zone aircraft N222ME during a detection flight. Personnel on board reported a 1 acre fire, 100 percent active, burning on flat terrain in black spruce. The fire plotted in a Limited suppression area and no values at risk were identified. The Upper Yukon Zone will continue to monitor this fire with aerial resources.

A small column of smoke was reported to the duty officer around 22:30 on 7/12 by a resident on Sand Lake. Helitack responded after the fog and mist lifted on 7/13. The reporter could no longer see any smoke once helitack was launched. Helicopter 873HL thoroughly scanned the area and did not find any blackened ground or smoke. It is planned to search the area on 7/14 when the weather is forecasted to be warmer and clearer.

## Staffed

 #304 Owner: BLM Unit: AKCYD-Central Yukon Field Office  
 Name: **Dietrich River** Cause: Lightning

On 7/13, the fire received precipitation and no dominant smokes were visible from the highway; however, drift smoke was present in the area. An unmanned UAS flew the fire and captured infrared images indicating areas of heat. On 7/14, all resources will demobilize from the fire and the fire will remain in monitor status. Fire size decreased to 332 acres due to more accurate mapping.

 Name: **Boulder Creek** Cause: Lightning

Zone surveillance aircraft N222ME flew the fire and reported it with a 30 percent active perimeter and spreading to the north. The fire was creeping and backing with isolated torching in black spruce. Observations were taken under 30 percent cloud cover with calm winds.

Personnel on the ground continued to improve upon the saw line around the allotment. An UAS (unmanned aircraft system) was launched and performed a recon over the fire.

Assigned Crews:	Assigned:
Chena IHC Type 1	7/3
North Star Type 2	7/9
White Mountain Type 21A	7/10

 #268 Owner: USFWS Unit: AKARR-Arctic National Wildlife Refuge  
 Name: **Campbell River** Cause: Lightning

At 1500 the fire was flown by zone surveillance aircraft N222ME. The fire was 25 percent active and was spreading to the north. Observed fire behavior included backing and torching in black spruce with 10 foot flame lengths. Weather observed included wind out of the north at 10 mph with 10 percent cloud cover and no precipitation. Fire is most active on the SW edge. A 12 mile line of fire has burned 2.10 miles south of the Salmon Trout allotment.

Resources on scene of the allotment and cabin continued to monitor weather and fuel conditions in preparation for a burnout operation. Higher relative humidities kept fuels damp and no burn was attempted. The Midnight Sun IHC began to pretreat areas around the allotment with water. Tomorrow personnel will continue monitoring conditions. A helicopter reconnaissance flight has been scheduled for tomorrow (7/14).

Assigned Crews:	Assigned:
Midnight Sun IHC Type 1	6/29

Resources are facing a very active fire while protecting a cabin and 2 allotments. Eight smokejumpers have been placed on the eastern portion of the allotments and are planning to burn out the area either late tonight or in the morning. The remaining 8 smokejumpers are prepping the rest of the allotments with hose lay and plumbing. Zone aircraft H-361EH assisted the fire with supplies and bucket drops while N864SF assisted the smokejumpers on the ground with aerial observations and updates of the fire activity. Depending on the success of the burnout operations, the fire could be mopped up within a few days time.

## Monitor
