	Name: 0.5 Mile Murphy Dome Road		Cause: Human	

At 1511, two DOF engines and Chena Goldstream Fire and Rescue responded to a structure fire with wildland involvement on Murphy Dome Road. The structure was fully involved upon arrival and the wildland fire was approximately 0.25 acre in size and burning in black spruce with 1-4 foot flame lengths. The fire was located in a Critical suppression management area and a structure adjacent to the fire was threatened. DOF Helicopter H120SH responded and conducted bucket work over the fire. The fire was contained at 0.4 acres. During the next operational shift, DOF personnel will return to the fire to continue mop up.

Smokejumpers conducted burn out operations today as they continued to protect structures and allotments in the fire area. Zone detection aircraft N309VS flew the fire in the morning for mapping and reconnaissance. Visibility was low due to smoke but personnel reported active fire behavior and significant growth. The fire and weather conditions prevented a helicopter reconnaissance flight today; a tentative helicopter recon is scheduled for tomorrow pending adequate conditions. Personnel will continue to assess adjacent structures and allotments.

N361EH and three firefighters returned to check fire 361 today. It was GPS'd at .38 acres. They located approximately 10 interior wildland smokes; most on the north end and some within 5 feet of the perimeter. There is some interior heat from heavy fuels in the structure rubble, possibly from wood stacked near the structure. It does not pose a threat to the line. Firefighters mopped up interior smokes. The pump and hose lay will remain in place. They will check it again at a later date.
