Burn out around the allotment is completed. 32AT was used to bump personnel to spots around the perimeter to prevent further spread to the north and west. Supplies were flown in to Point Hope, and bumped out to the fire. Demobilization estimated to occur 24-48 hours out. Acreage updated due to more accurate mapping.

Crews are expected to tie in line 100% by end of shift tonight. Crews mopped fire in 100 feet from the edge and green gridded around the perimeter. H-73HJ was utilized by transporting back haul off fire. The Midnight Suns IHCs and the smoke jumpers doing structure protection were demobilized off fire today.

These fires are currently in monitor status. Monitoring schedules are based on defined timeframes, but are dependent on available resources, and weather conditions. When monitoring occurs, information will be updated.

Lon: 158:55:23.4

Personnel: 8

Start Date: 6/5/18

Area: SWS

Owner: BLM

Unit: AKAND-Delta National Wild Scenic and Recreational River

139

Name: Molybdenum Mountain

Cause: Lightning

Jumpers continued to work towards full suppression goals utilizing T-52 and T-42 throughout the day with BD-840. The winds picked up increasing activity on the NW corner of the fire, making it difficult for personnel to suppress that area.. H-214NP and the Yukon Crew were mobilized to Aniak and plans for tomorrow consist of getting the crew in place to help with suppression efforts.

This is a staffed fire. Unfortunately the status of Out was inadvertently touched and cannot be undone.
