Minimal fire behavior was observed on the fire today due to rain over the past few days and relatively cool temperatures today. This resulted in minimal fire growth.

At Kindanina Lake (Division K), Smokejumpers and the TCC T2IA Crew continued with point protection on structures immediately threatened by the fire. Chena IHC continued direct line between the north end of the lake (vicinity H-14) towards a small lake to the west and began identifying and assessing indirect line options to secure remaining values at risk on the west side of the Kindanina Lake.

Smokejumpers and the White Mountain T2IA Crew finalized the point protection of structures at Iksgiza Lake (Division I) which is now approximately 2 miles east of the fire, these personnel will be relocated to other parts of the fire tomorrow. Smokejumpers and Midnight Sun IHC on the Tanana River southeast of Manley Hot Springs (Division W) began point protection work on an allotment which is 1.5 miles east of the fire. Boats were used for supply, crew transport, and site assessment operations in all staffed divisions.
