Firefighters continued to work both the north and south flanks of the fire, moving along the perimeter from the heel in the west. The fire edge near the Little Black River was secured. Tankers and helicopters were used to slow fire growth and knock down heat. An additional Type 2 crew was inserted to secure the west flank. A motorboat was used for logistical support moving equipment and firefighters as they bumped along the fire line.

The plan for tomorrow is to continue securing the north flank and preparing Native Allotments on the east side of the fire. A light and medium helicopter will be used for bucket work. Line will continue to be prepared to protect the Native Allotments. More of the fire edge along the Little Black River will be secured. A repeater site will be located and prepared. A motorboat will continue to be used for the Little Black River, east flank.
