Smoke jumpers made good progress cutting saw line from the head of the fire to both the left and right flanks. Fire Bosses 242 and 243 were utilized on the fire to reinforce their saw line by cooling hot spots burning in heavy dead and down timber. H-361EH delivered a critical load of supplies, J-17 delivered paracargo to the fire. Aerial supervision was provided by A/A 35E. The fire had strong variable winds in the afternoon, this resulted in isolated and group torching. Smokejumpers were able to keep the fire in check and no growth in acreage was observed. A hose lay was completed in the lower bottom right flank of the fire. Lack of water sources, black and white spruce blow down, and inaccessible terrain hazards continue to hamper mop up efforts.

The plan for tomorrow is to continue cutting line and progressing the hose lay around the fire perimeter.

An unexpected northerly wind shift pushed the fire toward H-120 and two crews were disengaged from the allotment due to time constraint of completing the mission. Protection measures were completed on an allotment east of the fire. Assessments were made on known sites south and east of the fire. Plans for next for next operational period include firing operations an allotment to east of the fire and potential firing operations to the north and east of the fire. Crews will continue to prep an assess structures and allotments on Jatahmund lake.
