Minimal fire growth was observed today. Smoke jumpers extended their hose lay and critical supplies to aid in their mop up operations were received in the afternoon. A new helispot was built for staging supplies. Fire Boss 242 and 243 were utilized on the left flank of the fire to cool down hot spots. Aerial supervision was provided by A/A 35E. Cumulous cells moved in over the fire and light precipitation fell for several hours. This gave smoke jumpers a chance to work hot spots along the edge of the line. H-361EH was utilized to haul supplies up to the fire line. Four fold a tanks and multiple pumps are now in place.

The plan for tomorrow is to complete the hose lay around the perimeter of the fire.
