At approximately 1430, AS Troopers called in to report a fire 1 mile south of Unalakleet on the other side of the river from town. A snow machine caught the tundra on fire and it was putting up some heavy white smoke. J-66 responded to the fire and reported that the fire had grown to about 35 acres with a 75% active perimeter with wind gusts up to 30 mph. J-66 deployed 6 smokejumpers and 2 other jumpers arrived via Argo. At 2000, the IC reported they were able to get around the fire and estimated it to be around 100 acres. They will get a GPS track around it in the morning and be ready for demobilization in the afternoon.

These fires are currently in monitor status. Monitoring schedules are based on defined timeframes, but are dependent on available resources, and weather conditions. When monitoring occurs, information will be updated.
