092 Name: **Clare** Cause: **Human**

The fire was reported by Matcom as a grass fire spreading towards structures and vehicles. One Forestry engine, Prevention, and helitack 117AM responded from Palmer, along with multiple VFD apparatus. The fire was sized up as 2.18 acres, burning in grass, black spruce, and mixed hardwoods with a camper trailer fully engulfed upon arrival. Multiple structures were threatened, and due to hazards in the area, helitack was unable to provide bucket assistance, and unable to land, but stayed over scene to provide eyes in the sky for Forestry personnel on the ground. Personnel was able to knock down the perimeter, and called the fire controlled at 1808. The cause was determined to be from a tree falling on a powerline, and the fire was placed in monitor status.

These fires are currently in monitor status. Monitoring schedules are based on defined timeframes, but are dependent on available resources, and weather conditions. When monitoring occurs, information will be updated.
