The IMT prepared for limited firing operations along a previously created control line immediately to the north of the fire in order to prevent the fire spreading north of this control line. Based on current weather conditions and forecasts, this will begin on 5/12/19. The White Mountain T2IA crew was staged for any potential suppression efforts on the fire as well as initial attack support for the BLM Military Zone. The IMT continued work on mitigation plans for land managers in order to prevent fire spread north of the primary containment later in the fire season as additional fuels become ready to burn after seasonal green-up.

Crew: White Mountain

Type: T2 IA

Assigned: 05/07

These fires are currently in monitor status. Monitoring schedules are based on defined timeframes, but are dependent on available resources, and weather conditions. When monitoring occurs, information will be updated.
