The White Mountain T2IA crew with support from heavy equipment started limited firing operations along the primary containment line in order to prevent the fire spreading north towards values at risk. Gusty winds caused several spots mid-afternoon. At the time of this report, these had merged into a single slop-over in grass. Containment of this slop-over became the operational priority and due to the potential it, 2-IHCs, 2-Air Tankers, and 1-Medium Helicopter were ordered to secure the slop-over this evening.
