Fire activity moderated with cloudier, cooler, and moister conditions. Fire exhibited single tree torching and modest rates of spread. Crews continue to build, strengthen, and secure control lines. Aerial resources were effective at slowing fire spread in areas without constructed fireline. The marshy area north of the fire continues to inhibit fire spread. Continued hot and dry conditions with lightning is forecast through the week.

These fires are currently in monitor status. Monitoring schedules are based on defined timeframes, but are dependent on available resources, and weather conditions. When monitoring occurs, information will be updated.
