Fire activity increased today with warmer and drier conditions than had been forecast. Adverse winds impacted the fire for most of the burning period, increasing holding concerns along the south flank. Some spot fires occurred over control lines and were contained. Crews continue to build, strengthen and secure control lines. Heavy equipment is being used to construct direct line and contingency lines. CL-215 Group arrived and is in place.

These fires are currently in monitor status. Monitoring schedules are based on defined timeframes, but are dependent on available resources, and weather conditions. When monitoring occurs, information will be updated.
