473 Name: **Robin Ave** Cause: **Undetermined**

AST reported a structure fire that spread to wildland at mile 14 Funny River Road. Central Emergency Services responded with engines and forestry responded with engines, prevention, and helitack. Upon arrival a .5 acre fire with group torching in mixed spruce and hardwoods was found. Additional spot fires were found across the roadway. 990SL and 330MH conducted bucket work. Personnel remained on the fire overnight.

PNMD9R	Owner: State	Unit: AKAKS-Alaska-Other		
464	Name: Hidden Creek			Cause: Undetermined

Multiple VIIRS dots indicated a fire 30 miles NE of McGrath. Helitack from McGrath responded and reported the fire as 85 acres, with a 60% active perimeter, in thick black spruce and hardwoods. Values at risk include a mine to the West and cabins to the East. Single and group tree torching were observed. Smoke jumpers responded from McGrath and scoopers were ordered but were unable to respond due to poor visibility. Due to a lack of essential IA resources and poor visibility fire objectives were adjusted from full containment to point protection. Fifteen IA personnel from McGrath were mobilized as visibility allowed and will stage at the Nixon Fork Mine.

The fire grew to 100 acres with group torching, running, crowning and spotting. The Black Hawks and a type 1 helicopter supported the fire briefly. Tactical aerial support was ordered, but due to visibility they were unable to support the fire. The south east head is seeing extreme growth. Two squads from Gannett Glacier and an IA squad mobilized by jetboat to the fire. H-33HX delivered water handling supplies to the fire and ground personnel will begin plumbing the northern perimeter of the fire. A TFR has been ordered for 7/10 0900.

Fire persists into all fuel types under moderate burning conditions. Fire became active at 1500 hours and burned actively through spruce and tundra.

Crews will continue to remain engaged in direct attack strategies simultaneously with point protection strategies on values at risk in the direction of fire spread, including allotments north of the fire and Northway. Structure protection actions in and around allotments north of the fire and Northway. Evaluations for infrastructure, primary residences and other structures will be ongoing in the Alaska-Canada Highway corridor.

L92Q Lat: **60 37.8336** Status: S/U Acres: **100,027.0** Option: **Limited**
903181 Lon: **150 26.2668** Personnel: **415** Start Date: **06/05** Area: **KKS**
PNL92Q Owner: **USFWS** Unit: **AKKNR-Kenai National Wildlife Refuge**
181 Name: **Swan Lake** Cause: **Lightning**

Fire behavior continues to be driven by above normal seasonal conditions. Active fire spread in normally fire resistant fuels (Hemlock, alpine tundra) continue to add slow, steady growth at higher elevations. Winds are slowly shifting to the Southwest, mixing some smoke out of the fire area. Fire progression and spread have been assessed in areas of concern, and long term strategic objectives continue to be evaluated and developed. Suppression resources are in place in the event eastwardly progression continues. Containment lines in Division A, R, and K again held throughout the burn period. Aviation efforts are highly effective and continue to slow fire spread at critical points in Divisions L and P. Improvement of the Skyline Trail as a potential confinement point in Division L continues through actions by crews. Skyline Trail, Fuller Lake, Resurrection Pass, and other trails north and above the Sterling Highway at MP 60 are being improved for containment and contingency lines. Structure assessments continue, with Kenai Peninsula Borough evacuation plans as a starting point. Contingency lines are being planned to halt fire spread towards Cooper Landing. Crews will utilize existing trail and natural features in an attempt to manage the fire spread east. Crews continue to secure the established line and fell any trees that are a hazard to the Homer Electric transmission line. Along the East Fork Moose River, crews continue mop-up and increasing perimeter security in the remainder of the area. Sites to the north and northwest have firefighting personnel and structure protection efforts are in place. Remote structures are prepped and have sprinklers in place. Future point protection efforts are being implemented for the East and West Swan Lake Cabins in the Chugach National Forest. Initial attack efforts are supported as requested by local unit. Night shift continues to patrol the Sterling Highway corridor and monitor smoke conditions.

Daily Report From: 07/09

7,350.0 Acreage Change Since 07/08

133 Name: **McArthur Creek** Cause: **Lightning**

Fire is still moving E/NE along the ridge, in a more open area with no hardwood and short open spruce, it is about to hit the creek backing downhill, probably has about 200ft to go, will check it in the morning and pass it to dispatch and let them know, both camps have good perimeters and will continue improvements.

These fires are currently in monitor status. Monitoring schedules are based on defined timeframes, but are dependent on available resources, and weather conditions. When monitoring occurs, information will be updated.

A brush fire was reported by City Dispatch (911). The Rural Deltana Fire Department responded and then requested Forestry Personnel to come do an investigation since this was a wildland incident. Once on scene, two black spots were discovered. The spots were cold-trailed and gridded with no heat or smokes found. Once the investigation was completed, the cause was determined to be children playing with matches/lighters. The fire has been placed in monitor status.

King's Peak Wildland Fire Module took command of the incident today. Helicopter 230 flew a reconnaissance of the fire and the acreage has increased to approximately 5,000 acres. The fire behavior observed was moderate, backing into the wind with short range spotting and isolated torching. The plan is to continue to monitor the fire, provide point protection and develop alternate strategies for suppression.
