Fire was reported at 1742 today by aerial surveillance aircraft, N864SF. The fire was 2 acres, 100% active, backing torching, running and spotting. It was burning to the southwest at 3-5 chains per hour. 1 load of smokejumpers, 1 medium helicopter, 1 light helicopter, 4 firebosses, and air attack worked on the fire. At 2330 IC reported that they were able to knock down the northeast corner which was the most active and held the fire to 2.5 acres. The fire is responding well to water applications. Tonight smokejumpers will secure a camp spot, helispot, and get hose around the fire. They will place a request in the morning for air attack, 2 firebosses, medium helicopter, and light helicopter to return when they come on duty.

PNMEZ2 Owner: **Private** Unit: **AKPRI-Private**
508 Name: **Kobe** Cause: **Undetermined**

Private citizen reported a fire in the Kobe Ag area. Forestry engines and local VFD's responded. Air Attack was requested due to the amount of smoke in the area as resources were unable to give an accurate size up or to determine resources or structures threatened. 5035E flew the fire and reported fire to be 2.3 miles long by 1/2 mile wide (approximately 750 acres) burning in black spruce, white spruce and hardwoods, rank 5. Fire was 100% active, with crowning and spotting 1/4 to 1/2 mile. Multiple primary residences threatened. The IC made the decision to pull all resources off the fire line to assess the situation for safety purposes due to strong winds and low visibility. Alaska State Troopers were requested to help with evacuation notices. VFD's from Tri Valley and Nenana were on scene to assist with suppression efforts. A late evening storm cell moved over the fire with moderate precipitation. Sawtooth IHC and Warm Springs IHC were mobilized to the fire, and White Mountain and Dalton IHC will arrive tomorrow, with four additional type 2 crew orders pending. Plans for tomorrow are to reevaluate the situation and come up with a suppression goal.

Fire reported by multiple residents of Tanana. N309VS was in the area, and diverted to investigate the report. No fire was found due to extremely poor visibility. N309VS reported zero visibility multiple times as it surveilled the area. Due to the poor visibility, further resources en route to the report had to be cancelled. Later, citizens from Tanana reported that they had accessed the fire via boat and were in the process of suppressing it. Further details will be reported as information is gathered.

The fire was discovered due to multiple heat signatures. It was flown by 222ME who reported upwards of 2000 acres, ¾ of a mile from a cabin. Fire bosses and Tankers were requested but unable to respond due to visibility conditions and higher priority fires. H-374PA responded from McGrath as well as B-4 from Palmer. Upon arriving on scene personnel reported the fire to be 3000 acres, with isolated torching and spotting. Personnel started structure protection on the cabins and plan to complete it during the morning of 7/12.

Incident was discovered by VIIRS heat signatures. One load of smokejumpers responded to the area and reported the fire to be approximately 300 acres with 30% active perimeter. Fire behavior was isolated torching with creeping and smoldering with moderate rates of spread. Fuels are a mix of spruce, tundra, and grasses. The smokejumpers were able to scout the incident from the air, identify structures in the area, and deploy two smokejumpers to a structure one-half mile away from the fire. The remaining smokejumpers were able to land at Beaver and begin to assess structures there.

Fire behavior today was moderate. Smoldering hot spots in the interior. No flare ups today. Crew is doing saw work and the sprinkler kits have cooled down the interior significantly. The plan for tomorrow is to complete saw work and remove hazard trees in the fire area. The crews will continue to grid until no heat is found. Demobilization is planned for Sunday pending fire behavior and cold trailing.

Fire behavior both incidents; minimal, creeping, smoldering and single tree torching. Scattered thunderstorms passed through the fire area last night and this operational period increasing cloud cover, lowering temperatures, and raising RH. Monitor fire behavior and spread. Supply ground resources via helicopter. Direct attack with simultaneous structure and allotment protection plan implementation. Burnout operations will be implemented to defend control line as needed. Crews will continue to implement direct attack actions and point protection. Strategies on values at risk in the direction of fire spread, including allotments north of the fire and Northway. Monitor areas in Division D where burnout operations took place.

Improvements at the Bible Camp have been completed. Structures at the east end of the fire are being assessed and plans are being made for protection there. A big concern is communication across the incident. To mitigate the issue a repeater has been ordered and is in Fort Yukon with plans for a communications tech to set it up tomorrow. Fire has crossed the Hadweenzic River to the west as observed on flight this morning. Some personnel went down river in boats to help incident 493 locate structures and transport firefighters and equipment.

319 Name: **Shovel Creek** Cause: **Lightning**

Conditions were similar to last couple days: hot and dry conditions tempered by low winds and smoke cover for much of the burn period. Outflow winds from thunderstorm cells allowed for increased fire behavior throughout the night. Today resources secured containment lines on the west, south and east sides of the fire. In the Chatanika River corridor resources continued point protection and limited direct attack.

181 Name: **Swan Lake** Cause: **Lightning**

Fire behavior continues to exhibit behaviors above normal seasonal conditions. Minimal fire spread was observed again on the fire perimeter with very limited interior smoldering. Visibility is decreasing throughout the fire area. Fire progression and spread have been assessed in areas of concern, and long term strategic objectives continue to be evaluated and developed. Suppression resources are in place in the event eastwardly progression continues. Containment lines in Division A, R, and K were again, untested during the burn period. Aviation efforts were limited in use due to visibility. Improvement of the Skyline Trail as a potential confinement point in Division L continues through actions by crews. Fuller Lake, Resurrection Pass, and other trails north and above the Sterling Highway at MP 60 are being utilized to halt fire spread towards Cooper Landing and beyond. Crews are utilizing existing trail and natural features establishing control lines to check eastward fire spread into Cooper Landing. Along the East Fork Moose River, crews continue mop-up and increasing perimeter security in the remainder of the area. Sites to the north and northwest have firefighting personnel and structure protection efforts are in place. Remote structures are prepped and have sprinklers in place. Point protection efforts are being implemented for the east and west Swan Lake Cabins in the Chugach National Forest. Support of initial attack efforts continue as requested by local unit. Night shift continues to patrol the Sterling Highway corridor and monitor smoke conditions. Alaska State Troopers and local US Wildlife Enforcement Officers are monitoring and delaying traffic as needed due to smoke on Sterling and Seward Highways.
