At 1920, a resident of Shugnak reported a new wildfire burning 15 miles east of Shugnak near the confluence of the Paa River and the Kobuk River. Bravo 6 was launched from Galena and arrived on scene at 2021 along with Fire Bosses 208 and 209. The fire was approximately 80 acres in size, actively burning in thick black spruce and tundra. The fire plots in a Modified management area. Numerous cabins and allotments in the area are threatened. It was determined that action needed to be taken. J-07 deployed 8 smoke jumpers to do point protection. They were split into 2 groups of 4 to cover multiple cabins sites at 2 different drop zones. FB-208 and FB-209 worked the fire for one fuel cycle and did good work knocking down the southern edge of the fire. By the end of the fuel cycle, the fire had grown to 400 acres. An order has been placed for one crew. The plan for tomorrow is to assess structure protection needs.

 534 Name: **Grouse Creek** Cause: **Lightning**

A fire was reported by Donlin Mine that was about 5 miles northwest of their location, growing and moving rapidly to the northwest. The fire was flown by B-4 later in the day who reported it to be 100% active, running, spotting and torching with multiple values at risk to the southeast. A load of smokejumpers was deployed to begin point protection and reported the fire was 250 acres, 100% active, backing and flanking. Personnel were actively engaged at the time of this report.

Crews completed the indirect dozer line to the south and west of Chalkyitsik which ties into natural barriers and the airport. Point protection measures continued to be setup on structures within the village and preparations for firing operations were made. Coordination with villagers in Chalkyitsik was completed to prepare them for potential sheltering in place should the fire impact the village. Personnel also continued with point protection on structures along the Black River corridor and on one allotment on Ohtig Lake. Reconnaissance and assessments for future point protection needs in the Porcupine and Little Black River corridors were completed.

Three fires one are being managed together due to their proximity - 487: 5 acres, 491: 50 acres, 499: 950 acres. Aircraft attacked fire 499 during the initial attack phase to allow ground personnel to try to suppress the other two. Initial attack was unsuccessful and all resources retreated to Red Devil to plan for structure protection. Smoke jumpers were demobilized from Red Devil this morning and the operation was turned over to an ICT4. Due to evening fire activity the jumpers were remobilized to the incident.

Smokejumpers resecured wet lines that had slopovers and 3 spot fires. Established a helispot at 1200 to start crew shuttle. Hooper Bay and Upper Tanana Squad. Additional resources include one paramedic, 1 TFLD, 1 ICT4, and one IC4T. In order to begin tomorrow's transition of command smokejumpers will continue to secure jack straw hot edge and remove hazard trees in order to allow handcrews to secure up to 15 feet of the fires edge. Tentative plan of smokejumpers demobilization is Sunday morning after we secure all hazards off the fireline.

362 Name: **Boundary River** Cause: **Lightning**

The fire saw precipitation as scattered thunderstorms passed through increasing cloud cover, lowering temperatures and raising RH.

Cooler than normal temperatures and higher RH levels can be expected again on Saturday before a very subtle increase in temperatures occurs on Sunday. Wind will remain generally light and out of the west through the weekend.

 Owner: **USFWS** Unit: **AKYFR-Yukon Flats National Wildlife Refuge**
337 Name: **Hadweenziec River** Cause: **Lightning**

Firefighters reported cooler temperatures and higher relative humidity than expected but no precipitation fell on the fire. Fire behavior was reported to be moderate with some growth to the west and to the east. The east-most fire perimeter is approximately 3 miles from allotments and structures. Plans are being made to shuttle resources on the incident to those allotments. The command repeater requested by the incident was not setup as the chosen site needs more preparations and a helitack crew was not able to deploy to the site due to smoky conditions. Recon flights have been requested due to limited visibility from the ground as personnel are only able to see small portions of the fire area.

PNMBT1 Owner: **State** Unit: **AKAKS-Alaska-Other**
324 Name: **Hess Creek** Cause: **Lightning**

The fire activity has moderated near the southern edge of the fire for most the day due to the lower temps and higher RH's. The majority of resources were focused on securing the two spots on the south side of Elliot Highway and made good progress. The two spots did have some growth during the evening and ended up at 4 acres a piece. All the spots have received saw line/hoselay and will continue to secure. The fire area along with Fairbanks was under heavy smoke cover so we weren't able to recon the fire with the helicopter. We did receive our task force of engines consisting of (2) Type 4 and (2) Type 6. This will help distribute the workload along the corridor.

PNL92Q Owner: **USFWS** Unit: **AKKNR-Kenai National Wildlife Refuge**
181 Name: **Swan Lake** Cause: **Lightning**

Minimal fire spread was observed again on the fire perimeter with very limited interior smoldering. Visibility is okay throughout the fire area. Suppression resources are in place in the event eastwardly progression continues. The upper middle drainage of Mystery Creek has presented an opportunity to dissect a finger of black spruce and potential halt eastward. This may take 1-3 operational shifts for completion. Along the East Fork Moose River, crews continue mop-up and increasing perimeter security in the remainder of the area. Sites to the north and northwest have firefighting personnel and structure protection efforts are in place. Remote structures are prepped and have sprinklers in place. Point protection efforts are being implemented for the east and west Swan Lake Cabins in the Chugach National Forest. Night shift continues to patrol the Sterling Highway corridor and monitor smoke conditions. 7/12 may be the last night shift for engine resources.
