Owner: **USFWS** Unit: **AKYFR-Yukon Flats National Wildlife Refuge**
466 Name: **Chalkyitsik Complex** Cause:

Crews in Chalkyitsik improved and reinforced the indirect dozer lines recently established to the south and west of the village in preparation for firing operations if they are required. Work continued on an indirect dozer line extending from Chalkyitsik to Ohtig Lake began, which would protect the village from the Bearnose Hill fire to the south. Six miles to the northeast of Chalkyitsik, crews continued work to tie natural barriers together with fire line in order to create an additional indirect line between Chalkyitsik and the Frozen Calf fire to the northeast. This indirect line will also protect several remote cabins and allotments in the Black River corridor. Point protection continued on 15 sites in the Black River corridor and at Herbert Village on the Porcupine River. Additionally, personnel began point protection at a site in the Little Black corridor and at an occupied site on the Salmon River.

A Type 1 Helicopter assisted ground resources with water support extinguishing spots along a ridge which separates the fire from the community of Richardson Clear. Blackhawk 152 and Blackhawk 593 assisted the Bison squad and the WFM Crew with water support on the East flank. A wind increased fire activity along the southern flank and pushed the fire through some of the unburnt spruce stringers and mosaic patterns. Montana DNRC Type II IA Crew was shuttled in by boat and took position on the East flank. The SES Ahtanum Type II IA Crew arrived at Delta Area Forestry and will be shuttled to the fire in the next operational period.

181 Name: **Swan Lake** Cause: **Lightning**

Fuels and fire indices remain above normal seasonal conditions. Minimal fire spread was observed again on the fire perimeter with very limited interior smoldering and isolated torching. Fire progression and spread have been assessed in areas of concern, and long term strategic objectives continue to be evaluated and developed. Suppression resources are in place in the event eastwardly progression continues. Containment lines in Divisions A, K, and R were again untested during the burn period. Division L continues holding the critical corner through actions by aviation. Personnel are scouting and looking for opportunities to go direct on the fire edge near the Division K/L break above Jean Lake. Crews accessed the Mystery Creek drainage and are using direct suppression tactics. This provides an opportunity to dissect a finger of black spruce and potentially halt southeast spread towards the Sterling Highway. This may take 1-3 operational shifts for completion. Fuller Lake, Resurrection Pass, and other trails north and above the Sterling Highway at MP 60 are being implemented as containment and contingency lines. Structure assessments are completed, with Kenai Peninsula Borough evacuation plans in place. Contingency lines are being implemented to halt fire spread towards Cooper Landing and beyond. Crews are utilizing existing trail and natural features establishing control lines to check eastward fire spread into Cooper Landing. A critical need is one Type 1 IHC to backfill Lolo Hotshots when they time out on 7/18. Along the Eat Fork Moose River, crews continue mop-up and increasing perimeter security in the remainder of the area. Sites to the north and northwest have been prepped and point protection and assessments continue. Trigger points are established for when to reengage firefighting personnel and structure protection efforts in these areas. Remote structures are prepped and have sprinklers in place. Point protection efforts are completed and re

574 Name: **Evans Island** Cause: **Human**

The fire was a small cabin down the beach about 500 yards to the southwest of their lodge. They had two portable pumps that they used to extinguish the remains of the cabin and the small wildland involvement yesterday and that the site was checked again today with no heat or smoke showing. Due to weather and location USFS personnel did not respond.

Daily Report From: 07/15
