Firing operations continued today to the northeast of Chalkyitsik where they crews finished firing late last night. These operations are removing the fuels between indirect lines approximately 6 miles to the northeast of the village and the southwest flank of the Frozen Calf fire. This will prevent the fire from spreading towards the village from the northeast. Additional firing operations will proceed in vicinity of point protection sites in the Black River corridor as the fire spreads towards those sites. The indirect lines to the south and west of Chalkyitsik were improved for additional future firing operations. Point protection continued on numerous sites along the Black, Little Black, and Salmon Fork Rivers. Complex Total - 357,175 acres.
