GENERAL INFORMATION

Listed herein are the items and kits which are stocked in the Alaska Fire Service Cache and the State Forestry Fire Warehouses. This catalog is not all inclusive of items or support that can be obtained from the warehouses. Kit components not found in the alphabetical listing may be found in the Kit section.

To ensure rapid processing of your order:

Use Catalog Numbers
Proper Description
Correct Unit of Measure
Print Legibly
Include Name and Phone Number
Time and Date Needed

BILLING

ALL EQUIPMENT IS BILLED AT THE TIME OF ISSUE.

Credit will be received when an item is returned in serviceable condition; or after it is refurbished and "Ready for Issue" (RFI).

(i.e. Pump cost minus parts used to repair, will not be credited until the pump returns from the Small Engine Shop.)

To receive credit for a returned item, that item must meet the refurbishing standards set forth in the Fire Equipment Storage and Refurbishing Standards Guide.

Managers need to supply a charge code for Radio and SAT Phone allocations.

An FBMS charge code is required to place an order.

Maintain your issued documentation to simplify the return process and assure credit to the appropriate account in a timely manner.

If an item is lost or damaged, it is the responsibility of the person issued the item to submit a report of the occurrence.

COMMUNICATIONS

AICC is the authorizing agent for the SAT Phone kits.

Authorizations for SAT Phones and KNG or BKR Radios must be listed on the Resource Order. The Cache cannot issue communication equipment without prior authorization. Modules and Teams should coordinate with AICC through the Duty Office to determine communication needs.

The Resource Order authorization is for the duration of the specific assignment.

Personnel returning from assignment with equipment checked out on their Resource Order must immediately return these items to the Cache for refurbishment and credit to the incident. This allows the equipment to be allocated where and as needed.

MEDICAL SUPPORT

Alaska Medical Support Programs

Both the BLM-Alaska Fire Service (BLM-AFS) and State of Alaska Division of Forestry and Fire Protection (DOF) have medical support programs in place to provide incidents with medical resources. Both programs have a Duty Officer(s) to serve as a point of contact for ordering from their pool of agency-sponsored medical resources. The respective Duty Officer should be contacted by the local dispatch center for the incident when resource order requests are received in order to assign available resources, or to push the order up to AICC if it is unable to be filled within that agency. Medical overhead available to be ordered include Paramedics, Advanced EMTs, EMTs, and Medical Unit Leaders. There is also a limited supply of additional medical equipment and supplies that can be ordered for use on a fire. Below are the standard ordering procedures for securing these resources on incidents in Alaska.

MEDICAL OVERHEAD

When an order for a medical resource (OVERHEAD) is received by dispatch from the field, the incident dispatch will contact their agency's medical Duty Officer (DO) and discuss the details of the request. The DO will provide a name and the qualification for the resource filling the request. Medical overhead are ordered as **EMPF/EMTP (Paramedic)**, **AEMF/T (Advanced EMT)**, **EMTF/B (EMT Basic)** or **MEDL (Medical Unit Leader)**. All qualifications ending with "F" identify an arduously-rated "fireline" medical provider. With this resource information, the incident dispatch will generate an IROC overhead request, as a name request, and the request will be placed accordingly through the dispatch system. The bulk of Alaska's medical resources are dispatched by AICC or ACDC in IROC. Most of these resources are hired as ADs or EFF by their respective agencies and proper paperwork should be completed prior to mobilization to be under official hire. The Duty Officers know this and provide this support to the casual hire employees.

Below are the overhead medical resources available, in order of priority for dispatching:

1) Alaska-based medical overhead resources, all ordered with "SMED" support medical kits:

BLM Alaska Fire Service:

AEMF/AEMT, EMTF/EMTB, MEDL/MEDL(t)
Duty Officer: 907-356-5748
Email: blm_ak_afs_fire_medic@blm.gov

Alaska Division of Forestry and Fire Protection:

EMPF/EMTP, AEMF/AEMT, EMTF/EMTB, MEDL(t)
Duty Officer: 907-761-6374 / 907-707-8619
Email: david.calvert@alaska.gov

Special Needs on resource orders for both AFS and DOF resources:

SMED Medical Kit attached as support supply request. Cell phone, radio, laptop/tablet and satellite phone authorized. 4x4 rental/NERV authorized. OR please note if a vehicle is NOT needed for an assignment off the road system. If flying commercial, excess baggage approved.

Once the Overhead (O#) order is generated in IROC, the incident dispatch will also create a SUPPORT supply order for a SMED Medical Kit (SMED – Service – Miscellaneous – Medical), which will accompany the medical provider in the field. This S# should be attached to the O#. Special needs should contain the O# and resource name to which it is attached to allow for easier tracking. This order is to be emailed to the home agency Duty Officer email for the overhead resource (AFS or DOF).

MEDICAL SUPPORT

2) Federal agency medical resources from outside of BLM-AFS and Alaska DOF:

- USFS w/ Federal Credential, w/ equipment and medications (EMPF, AEMF, EMTF)
- BLM w/ Federal Credential, w/ equipment and medications (AEMF, EMTF)

For all medical resource orders being sent out of Alaska, the following should be included as "Special Needs":

Resource must be a USFS or BLM medical provider with federal medical credential and medical direction to practice nationally. EMPF/AEMF: Must come equipped with line gear, ALS equipment, and medication. EMTF: Must come equipped with line gear, BLS equipment, and medication. Preferred experience in Alaska providing remote medicine. Cell phone, radio, laptop/tablet and satellite phone authorized. If vehicle is required for the assignment, 4x4 rental/NERV authorized. (OR please note if a vehicle is NOT needed for an assignment off the road system.) Be prepared to camp in remote Alaska locations. Bring a tent, sleeping bag, rain gear, and proper clothing for a 14-21 day assignment.

3) Contractors or other medical resources

There may be other nationally available resources with authorization to practice in Alaska. Please ensure that any resource order leaving the GACC for national fill includes the following as a minimum in the Special Needs:

Resource must have a current Alaska medical certification and medical direction to practice in Alaska. EMPF/AEMF: Must come equipped with line gear, ALS equipment, and medications. EMTF: Must come equipped with line gear, BLS equipment, and medications. Preferred experience in Alaska providing remote medicine. Cell phone, radio, laptop/tablet and satellite phone authorized. If vehicle is required for the assignment, 4x4 rental/NERV authorized. (OR please note if a vehicle is NOT needed for an assignment off the road system.) Be prepared to camp in remote Alaska locations. Bring a tent, sleeping bag, rain gear, and proper clothing for a 14-21-day assignment.

MEDICAL EQUIPMENT & SUPPLIES

EQUIPMENT

The following kits are available from both AFS and DOF to be ordered to incidents:

Kit Name	Resource Order	Qty	Resource Requested
AED Kit	Supply request	1 kit	AED Kit (16 lbs)
Litter Wheel Kit	Supply request	1 kit	Litter Wheel Kit (48 or 65 lbs)
Oxygen Kit	Supply request	1 kit	Oxygen Kit (20 lbs)
Sked Kit	Supply request	1 kit	Sked Kit (28 lbs)
Stokes Litter	Supply request	1 ea	Stokes Litter (60 lbs)

SUPPLIES

All medical supplies to be filled by the AFS and DOF medical support programs must be ordered by an Alaska medical provider sponsored by one of these programs. All other orders may be routed through local dispatch channels and buying teams for local purchase, or otherwise they will be returned as "Unable to Fill."

MEDICAL SUPPORT

Medical Supply Items Available to Order

Orders for these supply items will only be filled if they originate from an AFS or DOF-sponsored medical provider. Email the resource order to the respective agency Duty Officer (AFS or DOF, depending on which agency is managing the incident). You can always call the Duty Officer with any questions you may have regarding these orders.

2nd Skin	Gauze Roll 3"	Oxygen Regulator
4" x 4"	Gloves, S, M, L, XL	Oxygen Cylinder
5" x 9" Abdominal pad	Glucometer Kit	Penlight

Paracargo Ordering Process

The Alaska Smokejumper Paracargo (PC) program can be utilized to deliver equipment and supplies to incidents throughout Alaska. Paracargo delivery is a fast and efficient way to deliver needed resources to distant and remote areas when other means of delivery are impractical. Primarily used to support remote incidents with standard fire supplies, PC can be utilized to deliver specialty items such as barrel fuel, boats, 4 wheelers, etc. For information about these additional capabilities, contact PC at 907-356-5534; however, all orders must go through established ordering channels.

Zone, Area, and USFS dispatch offices will place supply and /or equipment requests through the ordering chain to AICC requesting Paracargo delivery from Ft Wainwright Ladd Army Airfield (FBK). **The order must be submitted via IROC as it will be filled by the Alaska Incident Support Cache (AK-AKK) which utilizes ICBS.** Ultimately, AICC makes the decision to use Paracargo for delivery of your supply order. When requesting order to be delivered via PC, be sure to follow up with dispatch to confirm how your order will be delivered.

After 3-5 days of PC support, consider working on a contingency plan for delivery of your supply orders in the event Paracargo is diverted to higher priority. Often at the height of busy fire seasons, Paracargo gets extremely busy, and AICC must prioritize PC orders. Alternative options to consider: ground transport to nearest Helibase and utilize rotor-wing or watercraft or fixed-wing transport to nearest airstrip and deliver to incident via rotor-wing or watercraft.

The following items must be included in Special Needs:

- Latitude and longitude of drop zone (DZ) (A large fire may have more than one DZ; include DZ name as needed. Supplies will be delivered to DZ specified in Special Needs of request #.)
- Air to Air frequency
- Air to ground frequency and ground contact name
- If order is large, provide a priority of items (i.e. food and water first, etc.)
- Elevation, if utilizing the JPAD (Joint Precision Airdrop System) **see below.**

Some things to consider:

- Typically, 3 pallets will fit on a CASA, possibly 4 if supplies are light. 24 filled cubies = 1 pallet; 48 boxes of MRE= 1 pallet; 24 cans of premix = 1 pallet
- People almost always want fuel delivered in 5-gallon cans even though they might give you the total amount they want. (For example, they will say 50 gallons of pre-mix when what they want is 10 five-gallon cans of premix; always ask if unclear.) However, occasionally we are running short of cans. If that situation arises, it is possible to PC a drum of fuel with a transfer pump and refill cans in the field. The warehouse carries 30-gallon drums of fuel, if that is a better fit for your needs.
- If an order has a lot of hose and no hardware (gated wyes, nozzles, reducers, etc.) make sure they aren't forgetting it. People get tired.
- If hose is ordered in feet, clarify if they want it rolled or in bags. Two types of packaging that can make a big difference in the field.
- Drip torches are typically rigged for PC with 3 in a single box with one 5 gallon can of fuel. If possible, order in groups of 3 (i.e. 6 drip torches and 10 gallons fuel). May not be possible with small orders.
- Keep in mind that PC aircraft frequently have later start times and that if there is flexibility in your delivery times, you can request a later needed date/time and save having a conflict with tactical aircraft that may be working your fire during the peak burning period. Discuss this option when you are talking to your IC.
- **In bad visibility:** The JPAD (Joint Precision Airdrop system) may be utilized. Usually, the IC will communicate the weather conditions to the Paracargo unit. If this is the case, an order for the JPAD must be placed through established ordering channels. The JPAD is ordered as *Service, Category Not Listed. **When using the JPAD, the elevation of the drop zone must be in the special needs.**
- Please back-haul all PC components (chutes, A-22, grain sacks, JPAD, and any associated hardware) to SMJ Paracargo or AFS Warehouse as soon as possible.

When in doubt about ANYTHING when taking an order, ASK.

It is much easier to get it straight the first time than it is to have to try to get back in touch with IC via radio or satellite phone. For more detailed information refer to PC sections in the Alaska Handy Dandy starting on page 75 and 151.

Some commonly ordered items are listed below. This is not an exhaustive list, just an aid.

Note: It is important to use below AKK catalog numbers as PC orders will be filled by AKK not SFW!!!

HAZARDOUS MATERIALS

IT IS AGAINST THE LAW TO NOT DECLARE OR NOTIFY A CARRIER OF HAZARDOUS MATERIAL YOU ARE SHIPPING

Hazardous materials shipping documentation is REQUIRED. The pilot must be notified of all hazardous items. The responsibility for preparing the documentation rests with the Shipper (YOU). Please refer to the following pages for quick reference guides, examples and blank forms.

You will need 3 copies of your document:

1st - Accompanies shipment.

2nd - For carrier.

3rd - For your records

The local Cache personnel are a resource on shipping requirements. When in doubt, call AFS at 907-356-5745 or the SFW in Fairbanks at 907-451-2640.

Please consult the “HAZ” column in Interagency Catalog white pages for clarification if the product you are shipping is a hazardous material.

Some of the commonly encountered hazardous materials are:

Aerial ignition Devices (Ping-Pong balls), fuels, lithium batteries, un-purged gas engines with attached fuel tank (i.e., generators, chainsaws, or Lt Wt pumps), propane, fuses, used fuel hoses, cans and fuel bladders)

Please follow the rules listed below:

Purge all equipment and run dry if possible.

ALWAYS ship fuel cans with the manufacturer’s bungs. NEVER with a drum valve.

Remove ALL fuel cans from the green packsack.

Consolidate like HAZMAT items. If possible, box together and label according.

NEVER ship a MK III fuel tank “Jerry can” with fuel.

ALWAYS separate an oxidizer from a material that produces a chemical reaction or flammable material.

(i.e. anti-freeze and ping pong balls – ping pong balls and fuses)

Air Transport Segregation - Separate compartments or flights.

Ground Transport Segregation - Packaged on separate pallets.

ALWAYS ship bear spray in an IATA approved cannister and INFORM the pilot.

QUICK REFERENCE

Updated 04/17/2019

FRESH FOOD BOX Overview

FRESH FOOD ORDERING - 24 Hour lead time is required on all Fresh Food orders.

It is only appropriate to order Fresh Food if the incident last 6 or more days.

Ordering Food

Fresh food boxes may be used as an alternative to MREs. There are situations where MREs are not suitable and alternative feeding methods should be considered. If Fresh Food is not available MREs will be substituted.

Fresh Food Box A feeds 2 people for 3 days. See following pages for contents.

Fresh Food Box B is designed to feed 4 people for 3 days. See following pages for contents.

Extended Food ordering schedule:

- Day 1 - Order
- Day 2 – Shipping / Wait
- Day 3 - Delivery

Keep the entire incident on the same 3-day fresh food cycle for logistical purposes. Staff arriving mid-cycle may be supplied with MREs.

If a Fresh Food order is delayed due to inclement weather or a logistical issue, DO NOT RE-ORDER.

Avoid splitting food boxes. Enough should be ordered to limit division of boxes between cohesive units. For example, when ordering Box A's: If you have three Type 2 crews, one with 20 personnel and two with 19 personnel, order 10 boxes per crew. Do not split a box between the two short crews.

For overhead, order by specific eating area. Order 19 boxes for 38 personnel at the Incident Command Post (remember, bus drivers, boat operators, etc.); 7 boxes for 13 personnel at the Helibase (include pilots, fuelers, etc.) and 3 boxes for the Spike Camp with 5 Overhead. When in doubt – round up.

When assessing whether to order A or B boxes, consider the goal is to have adequate food for all personnel without accumulating too much. This requires continual monitoring for long duration incidents.

Other considerations include the incident's ability to distribute large deliveries of fresh food because of staffing levels or transportation resources.

Camp Kitchen

Cooking Equipment such as pots, pans, cooking utensils, should be on hand or ordered in preparation for fresh-food delivery. If ordering from AFS, please include an order for all cooking equipment needed. State of Alaska has a Crew Kit that contains these items, additional cooking equipment may be needed.

Open fires are a generally accepted method of cooking food. When not appropriate or firewood is scarce, white gas stoves are available. Fuel (#1361) for the stove is a separate item.

Maintain safe storage temperatures to not expose personnel to the health risks of spoiled food. Ice chests and ice delivery may need to be considered if there is limited permafrost for refrigeration.

On a typical incident, food preparation, cooking, cleaning, gathering of firewood, etc. is a shared responsibility. For crews, one crewmember commonly remains in camp to attend to these duties, particularly on fresh-food delivery days.

Each crew will typically establish a kitchen at their camp. While generally not a problem, these camps should be inspected for sanitation and proper storage to prevent attracting bears. For overhead, it is recommended to have one large cooking/eating area rather than several small ones.

When fresh food boxes are delivered, label each box with the intended recipients name and box quantity. (For example: "Huslia #1 - 1 of 4"; "Huslia #1 - 2 of 4", etc.) Label the crew's boxes first and overhead's last.

Educate new staff on fresh food box basics, such as posting the food cycle with a list of how many of each item an individual is entitled to during the cycle – i.e. for each three days an individual gets one steak, three tortillas, three candy bars, two potatoes, etc.

Demob

If demob is imminent, limit the quantity of fresh food ordered.

Any remaining food items may be donated to a local food bank if one exists or returned to the Cache for disposal.

Please make every effort to maintain appropriate storage temperature so food can be donated and not wasted, and personnel are not exposed to the health risks of spoiled food.

FRESH FOOD BOX A CONTENTS & QUANTITY

ITEMS	QTY	UNIT
1. Steak, fresh frozen, New York Cut, 12 oz. Each, Individually wrapped	2	EA
2. Ham, precooked, frozen, boneless, 16 oz. package	1	PG
3. Tuna solid white meat pouches 4 to 6 oz.	4	PG
4. Chicken, white boneless meat, 12 oz.	1	CN
5. Wieners/ Sausage, all beef, frozen, prepackaged, 1 lb.	1	PG
6. Beef Jerky, 2.5 - 4 oz.	2	PG
7. Bacon, precooked	1	LB
8. Bread, 24 oz. 1 oz. or greater per slice, sliced, wrapped 2 Loaves , 1 multi-grain, 1 white	2	LOAVES

10. Cabbage	1	EA
11. Onion, medium, yellow	1	EA
12. Carrots, fresh, 1 Lb	1	BG
13. Oranges, small, mandarin or Tangelo	10	EA
14. Apples, (Two different kinds)	4	EA
15. Cheese, cheddar, mild or medium. sliced, 1 lb.	1	LB
16. Cheese, Monterey Jack or Provolone, sliced 1 lb ½ Pkg.	1	LB
17. Peanut Butter, 8 oz Jar	1	EA
18. Jelly, squeeze bottle, (Grape or Strawberry)	1	EA
19. Vegetables; 2 corn, 2 green beans, 2 pork & beans, 7.75 oz to 8.75 oz (may substitute can size if quantity of food remains the same)	6	CN
20. Rice, minute/ instant, type, boil in a bag	1	PG
21. Tortillas, Flour, large size, minimum 10 count	1	PG
22. Refried beans, 16 oz	1	CN
23. Salsa, individual packets {Minimum of 2 oz}	6	EA
24. Pilot Bread, 12 crackers total	1	BG
25. Fruit, canned, variety such as pears, peaches, fruit cocktail Mandarin oranges, etc. 8 to 8 ¾ oz. cans Note: May substitute can size if the total quantity of fruit remains the same	4	CN
26. Fruit, dried, assorted: apricots, dates, apples, pears, prunes, cranberries etc. 6 oz packages	2	PG
27. Macaroni and Cheese, 7.25 oz. box	1	BX

FRESH FOOD BOX A CONTENTS - CONT.

ITEMS	QTY	UNIT
28. Bouillon Cubes: 3 chicken, 3 beef, where cube makes 2 Cups OR 1 bag of 6 chicken and 6 beef where cubes make 1 Cup each		
29. Breakfast Cereal, instant, oatmeal, 1.2 oz., assorted flavors	12	PG
30. Egg Substitute (i.e. Egg Beaters), 1 box each equals 4 egg	1	BX
31. Candy bars, no less than three (3) different varieties of candy bars that contains chocolate, "King Size" or no less than 2.25 oz. each	6	EA
32. Energy Bars, assorted flavors, a minimum of 2.25 oz. Individ. wrapped	6	EA
33. Breakfast Bars, fruit filled, individually wrapped, assorted fruit flavors	6	EA
34. Candy, assorted with a minimum of 2 varieties of hard, individ. wrapped, 6 oz. or greater	1	BG
35. Powdered Milk, 1 quart package	1	PG
36. Drink mix. {Emergen-C brand or like product}	12	EA
37. Hot Chocolate, instant, 1 oz. pkg., makes ¾ cup serving	10	EA
38. Salt, iodized, table, 4 oz. shaker	1	EA
39. Pepper, black, table, ground, shaker, ½ oz.	1	EA
40. Garlic, powder, shaker, 2 oz. or more	1	EA
41. Honey, 12oz. squeeze bottle	1	EA
42. Margarine, 12 oz.	1	EA
43. Mayonnaise, squeeze bottle. 10 - 12 oz.	1	EA
44. Ketchup, squeeze bottle, 12 - 14 oz.	1	EA
45. Mustard, squeeze bottle, 8 - 11 oz.	1	EA
46. Hot Sauce, Tabasco, Tapatio or similar pepper sauce, 2 - 5 oz	2	EA
47. Plates, disposable, paper, 10", heavy duty	18	EA
48. Utensils, eating, plastic, heavy duty, forks, spoons, knives, 3 to a pkg.	12	SETS
49. Paper Towels, heavy duty, 75/95 two-ply towels per roll	1	RO
50. Aluminum Foil, 12" x 25' roll/box	1	BX
51. Re-sealable (i.e. Ziploc or similar type), pint or quart freezer bags	25	EA
52. Bags. Garbage type, plastic, heavy duty, 13 gallon	3	EA
53. Can opener, lid removing type, P-38 or similar size	1	EA
54. Moistened towelettes, individually wrapped	12	EA
55. Gloves, food handling	12	PR
56. Hand Sanitizer, 2 oz	2	BT

FRESH FOOD BOX B CONTENTS & QUANTITY OF ITEMS

BOX B is SUPPLEMENTAL; WILL FEED 4 PEOPLE FOR 3 DAYS

Each Fresh Food Box B shall contain the following contents and quantities

ITEMS	QTY	UNIT
1. Steak, fresh frozen, New York Cut, 12 oz. Each, Individually wrapped	4	EA
2. Sausage/ Hotlinks, all beef or pork, frozen, prepackaged 1 lb.	2	PG
3. Summer Sausage/Salami or like, all pork or Beef, frozen, 32 to 36 oz. Note: May be two (2) 16+ oz packages	1	PG
4. Chicken, white boneless meat, 12 oz.	2	CN
5. Beef Jerky, 2.5 - 4 oz.	4	PG
6. Bread, 24 oz, 1 oz or greater per slice, sliced, wrapped 1 multi-grain, 1 white and 1 wheat	3	LOAVES
