	Owner: AKPRI-Private	Cause: Human

Narrative from 7/1/2026: Central Emergency Services reported a fire with 40 foot flame lengths behind a residence on Pavillion Drive in Sterling. Air attack and an air tanker were initially ordered. CES resources and Forestry H-3HS, E-663, E-667, E-671 and E-672 responded. Upon arrival, IC reported 1-2 acres burning in spruce and grass with a 100% active perimeter. Isolated and group torching with spotting 3-5 feet observed and two structures threatened. Crew and four water scooping aircraft were ordered as H-3SH engaged in bucket operations. At approximately 1815, forward progression of fire was stopped and tactical aircraft requests were canceled. Clackamas T2IA responding from fire 222, Granite.

PDSSF4	Owner Category: State	Option: Limited
	Owner: AKDNS-AK Dept. Natural Resources	Cause: Natural

Narrative from 7/1/2026: The fire was initially discovered on 6/30 by a passing logistical aircraft, with an initial size up of 150 acres. Initial response included an air attack platform that confirmed the size of the fire, advising 50% active perimeter, being pushed by wind through tundra, tussock and scattered black spruce. Fire behavior included smoldering, flanking, running and isolated torching, burning in a limited management area. Several allotments and cabins were identified within the path of the fire's growth, however no initial attack resources were able to respond at that point in the day. One load of smokejumpers was dispatched first thing on 7/1 and quickly ordered additional aerial firefighters to respond. An air attack platform, two multi engine scoopers, two single engine scoopers and a second load of smoke jumpers were dispatched to assist in the response. Initial response was successful in halting progression at 500 acres, and ground resources remain on scene to continue securing the edge and mopping up the fire to prevent rekindling.

Narrative from 7/1/2026: Firefighters continue to patrol and extinguish heats along the perimeter of the fire. They expanded containment lines and removed pockets of interior heat that could pose a future risk of flare up. A suppression module was inserted today and tomorrow 12 smokejumpers will be demobilized and returned to initial attack readiness. Terrain and the remoteness of the incident present challenges to communication and firefighter safety. A delivery of Starlink satellite communication devices was made to bolster the capabilities of medical and logistical personnel supporting the fire.
