Cooler and damper conditions moderated fire behavior. This allowed crews to continue direct line construction working to secure slop overs and spots with the support of A/A, T-262, T-264, T-52 and T-55 and helicopter bucket operations on the northern flank of the fire. At this time, the fire remains south of the winter trail. In order to meet the strategic objectives of limiting fire growth to the north and avoid affecting communities and infrastructure an increase in staffing levels is planned to meet management objectives. A transfer of command with the Alaska Type 1 Incident Management Team will occur on 6/11/14 at 0600.
