At 1135 Nome Flt Service reported a wildfire located 15 nautical miles northeast of Nome.

AT 1330 zone detection aircraft N114MN confirmed the fire was approximately 35 acres in size, 100% active, smoldering, backing in tundra and grass and located in a Full suppression management area. It was determined that action needed to be taken.

At 1607 eight smokejumpers were delivered by Jump-66. Smokejumpers, Air Attack and one Fire Boss working to achieve containment.

At 2300 the fire was approximately 42 acres in size. The fire still has heat, but the perimeter is looking good at 90% contained. Plan to demobilize Smokejumpers tomorrow 7/17/15 @ 1800.

 Name: **Tetlin Hills** Cause: Lightning

Fire activity increased today with clearing skies and higher winds. Single tree torching observed but only supported by ground fire well inside interior with no threat to the line. Direct line has been completed on the south and west flanks. More live standing timber are beginning to fall because of burning in the duff layer. Not only does this provide concerns for the safety of line personnel but also loss of containment. This will also slow mop-up procedures in these areas to address these concerns.

Part of the Mat-Su crew worked with an excavator to work on berms at Mile 73.5 of the Parks Highway. The remaining of the crew worked berms and hot spots on the east of the fire. Additional Forestry engine personnel worked hot spots at the point of origin and other areas of concern. The plan for the next operational period is to continue working on heat found in berms and other hot spots found.
