On 8/27 in the late evening, Kodiak fire departments responded to a wildland fire adjacent to the community of Chiniak on Kodiak Island. The cause is still under investigation. Due to extreme sustained high winds, the fire spread rapidly to the southeast, growing to several thousand acres overnight. Fire growth was primarily in heavy logging slash and tall grass. Two residences have been confirmed lost, along with two other municipal structures. One load of smokejumpers was mobilized to the fire, along with numerous resources from the Kenai-Kodiak and Mat-Su Forestry offices. Current objectives for the jumpers include: secure hot areas around structures, and build direct line along the residences on the north end of the fire, utilizing heavy equipment.
