Name: **McHugh**

Cause: Human

Rain and moderate showers fell across the fire area for much of the day with cool temperatures and high humidity along with light winds. The fire area received one-half inch of rain. Containment objectives were met in Divisions A and C. The Structure Group is finalizing the Structure Protection Plan. The Seward Highway and Alaska Railroad tracks continued to be monitored for debris and rollout. In order to limit firefighter exposure in steep, inaccessible areas a Confinement Strategy has been chosen for portions of the fire that are confined by scree slopes and rock outcrops with little or no burnable vegetation. Crews tomorrow will continue to reinforce containment lines and will begin removing hoselays from subdivisions.
