Wetting rain yesterday reduced all indices to low, except for the Drought Code which remained at Moderate. Sheltered surface fuels and duff remain available for smoldering. Rain forecasted for Monday will keep the humidity and fuel moistures low for an additional day ahead of a drying trend on Tuesday. Goals of the next operational period. Secure dozer line with handcrews on northerly portion of the fires edge securing the perimeter within 100ft from the fireline. Continue scouting and direct line construction with hand crews through steep and challenging ground on the easterly flank. Continue to secure the heel and western perimeter of the fire by improving the line and inserting hose lay along the dozer line and mopping up to 100 ft throughout the division.
