PNN3UW Owner: **State** Unit: **AKDNS-AK Dept. Natural Resources**
235 Name: **Munson Creek** Cause: **Lightning**

The fire was very active, driven by hot and dry conditions and strong winds associated with a cold front passage. The perimeter was about 90% active with mostly creeping and smoldering, however the eastern side of the fire exhibited a continuous crown fire and progressed about a mile and a half to the east in Limited protection land. On south side of the perimeter the fire continued to back closer to cabins and mines prepped with sprinklers along the North Fork Chena River and has not yet crossed the river. The fire is still hung up just west of Bear Paw Butte on the east side of the fire. On the north side of the fire near Chena Hot Springs Resort, crews continued to mop up and secure the fire edge to keep the fire south of the resort and Monument Creek.
