Fire was reported to have a 20% active perimeter with no significant acreage change. Fire perimeter was updated due to better mapping. The northwest and northeast side of the fire was smoldering in tundra and portions were backing towards the creek. Smokejumpers and UAF Nanook Crew continue to cut out direct and indirect lines, including structure protection. Resources will continue to conduct fire operations tomorrow.

The North Star crew continued work on the indirect fire break extending around Venetie. Today, this work continued to improve existing fire breaks to the north of the village. Three smokejumpers finished point protection preparations on a second cabin and then were transported to the third cabin location to begin work there. Overhead personnel met with members of the village council in Venetie in order to form a plan for further fuel break construction extending around the village tying into the airfield.

Weather was mostly sunny with calm winds and high temps around 75 degrees. Fire personnel conducted brushing on the road to camp and continued to check pumps and establish trigger points at Bens Cabin and Sams Cabin. The fire is creeping and smoldering but has been held up in hardwoods, preventing it from crossing the north end of the Charley River. Crews will continue point protection and brushing operations tomorrow.

These fires are currently in monitor status. Monitoring schedules are based on defined timeframes, but are dependent on available resources, and weather conditions. When monitoring occurs, information will be updated.
