The North Star crew continued work on the indirect fuel break around Venetie. The Nanook crew was transported from fire 388 and began work on this effort as well. Additional options for fuel breaks were scouted to the east of Venetie by smokejumpers and overhead. Once both crews have finished work on improving the old fuel break, they will construct a new fuel break tying into the runway.

Weather over the fire was mostly sunny with high temperatures around 83 degrees and winds out of the north at 5-10mph. There was light smoke observed with backing and torching into areas of hardwoods. The NPS module was demobilized off of the fire to Eagle where they will spend the night and continue on to Fairbanks tomorrow. Remaining personnel conducted reconnaissance and preparedness measures through the day and will continue with these tomorrow.

These fires are currently in monitor status. Monitoring schedules are based on defined timeframes, but are dependent on available resources, and weather conditions. When monitoring occurs, information will be updated.

Fire was active on 70% of the southern and west perimeter. Smoldering, single tree and group tree torching, with 5-to-10-foot flame lengths and 100 foot spotting distance. Fire is burning in O1 A and C-2 CFFDRS fuel model. General fire growth is to the south away from Jatahmund Lake point protection sites, and to the west toward Nebesna River and south toward Lick Creek. Helicopter 6PA was sent out to perform bucket work around Jatahmund Lake RAWS on the southern end of the lake but due to smoke and poor visibility, the helicopter did not commence bucket work. Plan for the next operational period will include assessing point protection sites along the Nebesna River, monitoring fire activity near the RAWS site and allotment and mapping fire perimeter. Current fire size estimate is 10,000 acres

These fires are currently in monitor status. Monitoring schedules are based on defined timeframes, but are dependent on available resources, and weather conditions. When monitoring occurs, information will be updated.
