Received information over the radio and from Troopers that there was a powerline fire that caught a tree on fire, down Ciechanski Road. CES and one Forestry engine responded, and HEA was notified. When the Forestry engine arrived on scene, they reported that the fire was in tree branches, but there was no additional fire growth/activity. HEA arrived on scene, de-energized the powerlines, and K-62 stayed on scene to ensure there was no further wildland involvement/fire spread. The fire was called contained, controlled and out, and K-62 departed scene.

At 18 acres the fire has had no growth, though a gentle breeze was waking up a few hot spots. The crew was able to lay hose around the fire, doing some cutting around the north side through the west flank and brushing out the hottest area of the fire. The IC anticipates 20% containment by the end of shift. The crew still has quite a bit of cutting to do, which will be the next objective. While the hottest part of the fire on the north end has solid line around it, the south end still needs to be brushed out. This area has cooler temperatures.

Fire activity is still very active with torching, wind driven runs, and spotting. Most of the fire progression has been to the south and southeast.

The villages of Mountain Village, Pitka's Point, and St Marys are now under threat as well as numerous structures in the area on allotments to the south and east of the fire. Evacuations plans are being developed for St. Mary's. 500 people of St. Mary's went into level 1 'ready' evacuation status on June 10th, 145 have been temporarily sheltered in Bethel.

These fires are currently in monitor status. Monitoring schedules are based on defined timeframes, but are dependent on available resources, and weather conditions. When monitoring occurs, information will be updated.
