The cooler temperatures brought relief to the fires throughout the planning area today resulting in minimal fire behavior and growth. Fire numbers 206, 239, and 240 are still the only staffed fires. Approximately 70 fire line resources are assigned to these fires including {2} Type 1 hand crews and various overhead. These resources continue to identify and validate known sites that require defensive action along the Kuskokwim and Holitna Rivers and initiate structure protection measures. Unstaffed fires are being assessed daily by aerial surveillance using satellite imagery or ground reconnaissance. Only two fires (197 and 198) were monitored by air last night, which contributed to the overall increase in acres to the complex. Aniak staging is being established to support current and future resources assigned to the fires.

Total acres reported for the 18 fires is 427,310
