While the weather was cooler today and skies were overcast, much of the fire area received little to no precipitation. Fire activity increased slightly today. Approximately 75 fire line resources are assigned to these fires including {2} Type 1 hand crews (Pioneer Peak and Winema) and various overhead. These resources continue to identify and validate known sites that require defensive action and initiate structure protection measures, as needed. Fires are being assessed daily by aerial surveillance or satellite imagery or ground reconnaissance. Aniak staging is in place to support current and future resources assigned to the complex.
