Personnel that were inserted into the Crooked creek area are continuing structure protection measures on fire 206. Air attack continues to monitor fire behavior for Fire 239/240. The fire bosses are used to protect values at risk along the Mulchatna River. Resources in and around the Lime Village area are continuing structure protection measures and will complete hose lay operations to support future defensive firing operations.

Approximately 98 fire line resources are assigned to the complex including {2} Type 1 hand crews (Pioneer Peak and Winema) and various overhead. Pioneer Peak is on R&R days over the weekend and will return Monday, June 27th. {1} Type 2IA hand crew (Gannett Glacier) is also assigned to the complex. These resources continue to identify and validate known sites that require defensive action and initiate structure protection measures, as needed. Fires are being assessed daily by aerial surveillance or satellite imagery or ground reconnaissance. Aniak staging is in place to support current and future resources assigned to the complex.
