Helitack and two Forestry engines were dispatched to a structure fire. Helitack provided a size up and determined a need for only one Forestry engine. Other apparatus were released and the remaining DOF engine personnel checked for hot spots around the perimeter of the extinguished structure site. After finding no heat around the perimeter they called it contained, controlled and left it in monitor status.

Multiple Forestry units responded to an escaped burn pile fire in a residential neighborhood. Forestry tied in with VFD resources on site and established command of the incident, released unneeded resources and put water on the fire. Incident was declared contained, controlled and left in monitor status. Additionally, Prevention was called to the scene where they issued a written warning for inadequate fire break, multiple piles and inadequate water on site.

These fires are currently in monitor status. Monitoring schedules are based on defined timeframes, but are dependent on available resources, and weather conditions. When monitoring occurs, information will be updated.
