# 133

Name: **Zitziana River**Cause: **Lightning**

Minimal fire behavior was observed on the fire today due to rain over night and light showers at times during the morning. This resulted in minimal fire growth today.

At Kindanina Lake (Division K), Smokejumpers and the TCC T2IA Crew continued with point protection on structures immediately threatened by the fire. Chena IHC began direct line between the north end of the lake (vicinity H-14) towards a small lake to the west and began identifying and assessing indirect line options to secure remaining values at risk on the west side of the lake.

Smokejumpers and the White Mountain T2IA Crew continued with point protection of structures at Iksgiza Lake (Division I) which is now approximately 2 miles east of the fire. Smokejumpers and Midnight Sun IHC on the Tanana River southeast of Manley Hot Springs (Division W) finalized point protection preparations on the main group of structures in the division.

This group of structures is now approximately 5 miles to the east of the fire and the closest allotment is 1.5 miles to the east.

Boats were used for supply, crew transport, and site assessment operations in all staffed divisions.
