#267 Name: **Top of the World** Cause: **Lightning**

The Top of the World fire transitioned today with a local area IC. The fire was mapped and is holding at 25 acres after the jumpers worked late into the night. A Forestry helicopter was utilized to deliver supplies and personnel today. The perimeter is about 10% contained and projected to be fully contained in three operational periods with the current weather outlook.

133 Name: **Zitziana River** Cause: **Lightning**

Fire behavior moderated significantly today with the arrival of cooler temperatures, higher RHs, and some light shower activity over the fire area the past 24 hours.

At Kindanina Lake (Division K), Smokejumpers, TCC T2IA Crew, and FPP Type 2 Crew continued with mopping up around the structures and mopping up the direct line extending to a small lake to the west. Chena IHC and White Mountain T2IA Crew finalized indirect line construction west from Kindanina Lake to the south end of the small lake to the west. Smokejumpers at Mooseheart Lake (Division M) finalized point protection preparations and will be relocated to other priorities areas on the fire tomorrow. Smokejumpers and Midnight Sun IHC on the Tanana River southeast of Manley Hot Springs (Division W) continued point protection work on the 3 allotments in that division. The closest allotment is 1.5 miles east of the fire. Boats continued to be used for supply, crew transport, and site assessment operations in all divisions. They were able to access several cabin sites on the Zitziana River initially discovered by air so that firefighters could assess them further on the ground.
