Crews in Chalkyitsik improved and reinforced the indirect dozer lines recently established to the south and west of the village in preparation for firing operations if they are required. The point protection measures within the village were finalized. Assessments on a potential indirect dozer line extending from Chalkyitsik to Ohtig Lake began which would protect the village from the Bearnose Hill fire to the south. 6 miles to the northeast of Chalkyitsik, crews also began work to tie natural barriers together with fire line in order to create an additional indirect line between Chalkyitsik and the Frozen Calf fire to the northeast. This indirect line will also protect several remote cabins and allotments in the Black River corridor. Point protection continued on 15 sites in the Black River corridor and at Herbert Village on the Porcupine River. Additionally, personnel began point protection at a site in the Little Black corridor. Complex Total - 267,773 acres.
