Fire behavior was active again today on the three large complex fires which continue to burn together (Frozen Calf, Bearnose Hill, and Tractor Trail 2). Fire spread occurred on most portions of the entire perimeter, except for the northern perimeter of Frozen Calf which has not significantly advanced in several days. On #367 a 300 acre slopover occurred over Fishhook Creek, northeast of Chahalie Lake, increasing the threat to a Native Allotment on the west side of the lake. Fire behavior was low-to-moderate on the Tettjajik Creek fire, showing no perimeter growth today, as recent area rain showers and an encroaching weather front brought higher humidity to the area. Total complex acres - 492,087.
